

Lakewood's Legacy

A legacy is a gift; something handed down or left behind that is remembered, revered or has influence on the present day. What is Lakewood's Legacy? The Park, Recreation and Community Services Department is spearheading a "Lakewood Legacy Plan" to work toward a healthy, sustainable and livable city. This strategic plan will address our needs for the next twenty years. How can you help?

Look for a survey packet! About one in every four households should be expecting a packet in the mail around November 5. If you are the lucky one receiving this packet, you have the privilege to voice out your opinions and needs. Please take advantage of this special opportunity by returning the survey and help Lakewood leave it's legacy.

For any questions about the Lakewood Legacy plan or how you can help, please call 253.983.7887.
